

2°ii on the road to COP21

We provide here an updated list of events and related news on our way to COP21.

2° Investing Initiative at COP21, Paris:

- **Nov. 30 – Climate change: the finance sector and pathways to 2°C** – *Salle Victor Hugo – Immeuble Jacques Chaban Delmas, 101 rue de l'Université, 75007 Paris*
(13:30–15:30) The 2° Investing Initiative and the [SEI Metrics project team](#) will present the 2°C Portfolio Framework, aimed at assessing the alignment of investment portfolios with climate goals.
(15:30–19:30) The 2° Investing Initiative, the Oxford Martin School, and France Stratégie are inviting decision-makers and climate experts to share their vision and propositions for a climate-friendly finance sector. Hosted by French MPs Arnaud Leroy and Denis Baupin, the conference will welcome speakers such as François Villeroy de Galhau (Banque de France), Pierre Moscovici (European Commission), Jean Pisani-Ferry (France Stratégie), Myriam Durand (Moody's), Colin LeDuc (Generation IM), Luiz Pereira da Silva (BIS) and Myles Allen (Oxford Univ.).
([Full program and registration](#))
- **Dec. 1 – Towards a sustainable financial system: lessons from UNEP Inquiry national case studies** – *Climate Generations area, Salle 10, Le Bourget*
(11:15-12:45) – The Institute for Climate Economics (I4CE) co-hosts a discussion with the UNEP Inquiry into the Design of a Sustainable Financial System. This event will present some of the emerging practice from national case studies supporting the transition to a sustainable, low-carbon economy. Stan Dupré of 2° Investing Initiative will moderate the panel on “Changes in practice: national case studies and evolving global trends”.
([More information available on the I4CE website](#))
- **Dec. 1 – The Future of Financial Markets in Line with 2°C** – *German Pavilion, Le Bourget*
(12:00–14:00) The German Environment Ministry (BMUB), New Climate Institute, Germanwatch, and 2° Investing Initiative will host a discussion on measuring the compatibility of project finance and infrastructure investments with the 2°C climate goal. The event will include a presentation of the report on "2°C compatible investment criteria" published as part of the German G7 presidency. UNFCCC accreditation required, no registration required.
([Interim report online](#)) ([Contact us for more information](#))
- **Dec. 2 – ACT – Assessing low Carbon Transition** – *French Pavilion, Le Bourget*
(17:00–19:00) CDP and ADEME, in partnership with EIB and 2° Investing Initiative, present a new

verifiable climate rating that will assess the degree of alignment of companies with the need to transition to a low carbon economy.

- **Dec. 4 – From climate goals to portfolio allocation: the Sustainable Energy Investment Metrics (SEI Metrics) project** – *European Pavilion, Le Bourget*

(16:30–18:00) At this joint event, 2° Investing Initiative and the SEI Metrics research consortium will present their approach to translate COP21 policy goals and associated roadmaps into portfolio exposure targets. The event will include a presentation of our report "Assessing the alignment of portfolios with climate goals: IEA climate scenarios translated into a 2°C benchmark". UNFCCC accreditation required, no registration required.

([Full](#) and [short](#) versions of the report available.)

- **Dec. 4 – Dutch Financial Institutions on carbon foot printing, disclosure and target setting for investments**– *Netherlands Climate Pavilion, Le Bourget*

(13:30-16:00) Organized by the Dutch Platform Carbon Accounting Financials, CEO's and experts from leading Dutch financial institutions will discuss the challenges to the development and implementation of carbon foot printing and target setting for investments on route to a low carbon society. Stan Dupré of 2° Investing Initiative will participate in an expert panel discussion at 14:45. UNFCCC accreditation required.

(For more information, contact sustainability@asnbank.nl)

- **Dec. 7 – Role of the financial system in the transition to a low-carbon economy** – *Climate Generations area, Salle 3 Le Bourget*

(11:00–14:00) 2° Investing Initiative, Carbon Tracker Initiative, and the UNEP Inquiry will introduce their respective approaches and current activities. A panel will explore avenues to adjust the regulatory context and investment processes to climate needs.

At the COP21 Climate Generations area (Le Bourget), free access, no UNFCCC accreditation required.

- **Dec. 8 – How to redirect capital towards a low-carbon and resilient growth** – *Brussels room, European Pavilion, Hall 2B, Le Bourget*

(14:45-16:15) The objective of this GLOBE EU side event is to understand the role played by the financial sector and the mechanisms of financial regulation in financing the transition to a low-carbon economy. The event seeks to identify the changes necessary in regulation and recognize the need for voluntary action.
