

Corinne Lepage is appointed President of 2° Investing Initiative

The 2° Investing Initiative Board has appointed Corinne Lepage as President of the Association, replacing Jean-Pierre Sicard, our President since 2013.

“I have supported the Association since its inception with Stan Dupré and Hugues Chenet, and I am very honoured to accept the role of President.

The work of 2°ii continues to apply and finance the recommendations of the report, [L'Économie du Nouveau Monde \(Economics of the New World\)](#), which I handed into Segolène Royale, the French Minister for the Environment, in June 2015.”

“2°ii has come a long way in just three years, thanks to its founders Stan Dupré and Hugues Chenet, their team, and the support of a large number of actors and members. I am pleased to have contributed to the first steps of this adventure.

In 2015, the dynamics of COP21 triggered an unprecedented mobilisation of financial players around climate issues. One can only acknowledge the extent to which the 2° Investing Initiative preceded this momentum and should contribute to any forthcoming solutions. I am glad that Corinne Lepage can take over the Presidency in this very stimulating period.”

The mandate of Corinne Lepage will run until the election of a new Board at 2°ii's 2016 General Assembly, planned for April 2016.
